

OVERVIEW OF THE TOWN OF LIBERTY

From its early formation on March 13, 1807, the Town of Liberty has come a long way in its development to be a good place to live and work. We have many assets that set this town aside from the rest. Located in a rural environment and within a reasonable driving distance from many of the northeast's larger cities, the Town of Liberty offers many great recreational opportunities to those who just want to get away and enjoy life.

For the golfers, we have the world renowned Grossinger Golf Course and Country Club which offers world class golfing at its best. Our Sullivan County Golf and Country Club offers a smaller course and, has one of the best views and fairways in the county.

Early settlers found Liberty to be an excellent hunting and fishing area and that remains the same today. Every fall, hunters flock to our town to get their share of small and big game hunting. In the spring, the turkey hunters return for a

second chance to get one of those beautiful wild birds. We have many ponds, lakes, and streams to give our fishing friends a good run for their money.

We are rural but, not out of touch. With the advancement of telecommunications we host our own website for those who wish to explore the world through computers. We

have an excellent road system and the town is located on state route 17 which is the key to bring us many visitors through New York's Network of interstate roadways.

We are the people of the Town of Liberty. We live in the Village of Liberty, and the communities of Loomis, Swan Lake, Ferndale, Parksville and White
